ROSEMONT COPPER MINE – EPA NEPA/CWA REVIEW

The Hudbay Minerals, Inc. (Hudbay) proposed Rosemont Copper Mine Project would involve the construction, operation, reclamation, and closure of an open pit mine on National Forest System (NFS) and adjacent private and State lands in the Santa Rita Mountains southeast of Tucson, Arizona, to recover copper and other locatable minerals.

The U.S. Environmental Protection Agency (EPA) has raised concerns about the Project throughout two reviews:
